

After the Government announced a huge drive to vaccinate against Covid-19 before January, there has been some confusion.

Here, we explain how to get your booster jab:

Vaccination services are working extremely hard to roll out the booster programme and to make as many appointments available as possible

Appointments are being added daily and capacity is being increased.

Keep trying the online booking system or call 119

The National Booking
Service website is very
busy but please keep
checking. You may also be
contacted by your local
service or GP practice over
the next few days about
your vaccine

Don't contact your GP
practice about your
booster vaccine. It's
important to keep phones
and online streams clear
for patients with healthrelated needs

You'll be able to have a booster 3 months from your 2nd vaccine. If it's been 2 months, you may want to book an appointment in preparation by using the Booking Service or calling 119

Unless you are contacted by your practice, GP practice appointments should be attended as planned. If anything changes, your practice will contact you

## Where do I go to find out more?

Book your vaccine appointment on the NHS website by clicking <u>here</u>. Remember, it may be busy but do keep trying as appointments are added often. Some areas are also offering a walk-in service.

You can also book your vaccine by calling 119. Calls are free and lines are open from 7am to 11pm. You can also use this number to book a PCR test.

Support is available in 200 languages and there is a sign language interpreter too.

If you have any questions or concerns about getting the vaccine or need more information, please have a look at the <u>Frimley Health website</u>.

Remember to keep calm, and avoid contacting your GP surgery about your booster vaccine. Thank you for your patience.

If you are able, please provide feedback to us about your experience at enquiries@healthwatchslough.co.uk, www.healthwatchslough.co.uk or call 0300 0120184
